

A vegetable plot in the playground...

What a mess!

Collège Jean-Jacques Rousseau, Tassin

The analysis of the ground

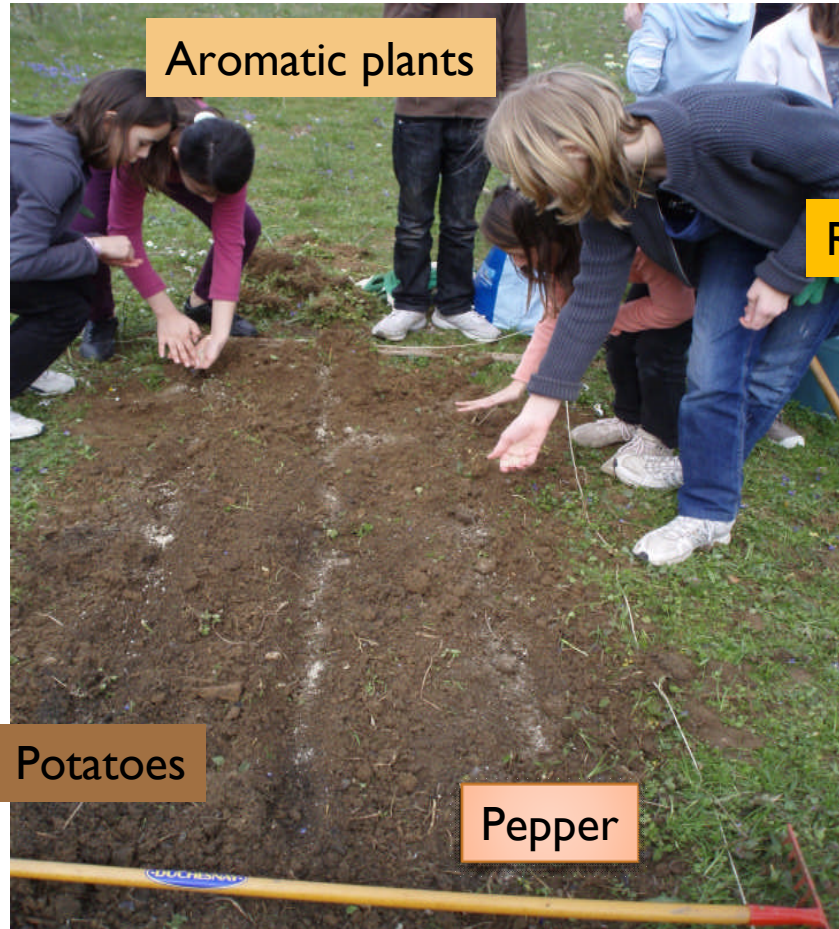

The acidity

The texture

The sausage of wet
ground forms well →
The ground is clayey

The sowing

Aromatic plants

Carrots

Radish

Salads

But also nasturtiums !

Potatoes

Pepper

We also looked for crops which were compatible. Certain flowers attract the insects for example.

Plantation of potatoes and salads ...

A garden tool which respects the fauna of the ground ...

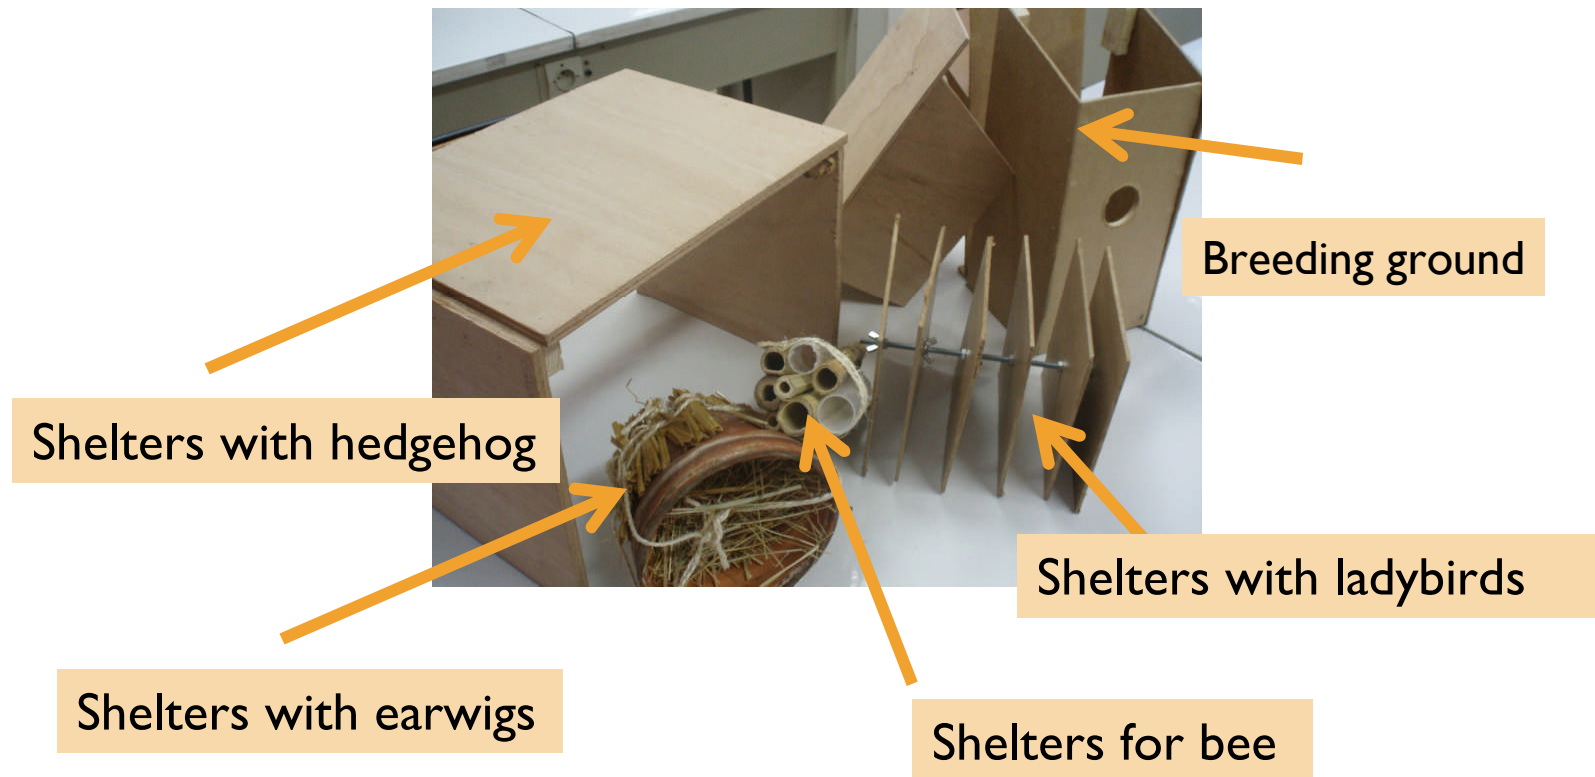

The grelinette

used garden tools which respect the fauna of the soil as this spade airs the ground without putting it at back

Shelters for animals

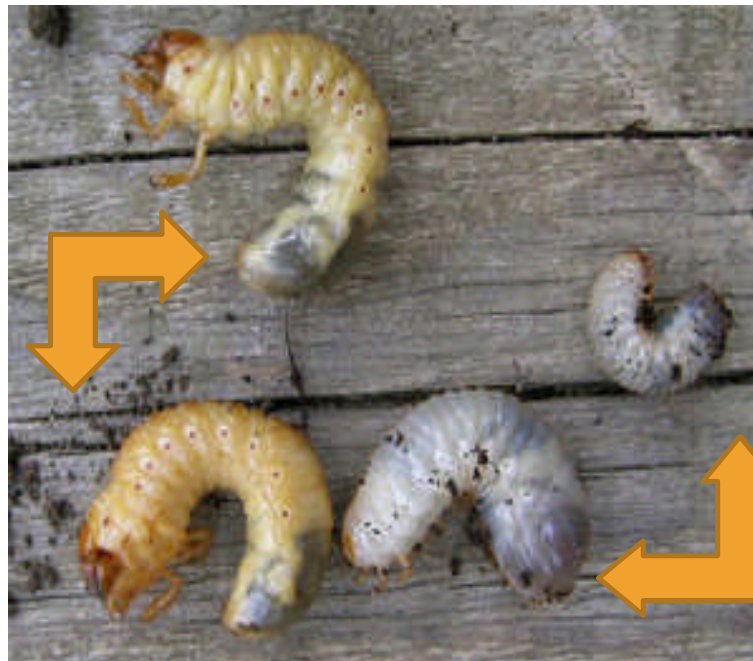

The friends of the kitchen garden ...

! be carreful !

Learn to recognize them ...

larvae of
cockchafer

Larvae of
Cetoine

A hedge

Our future puddle !
